Experience

Newton School | Student Trainee - Full Stack Web Development   June 2021 - December 2021
- Newton School empowers people to become Rockstar developers to get sky-high packages at some of the leading companies.
- It helps students to land on to dream job with industry-standard tech courses, that takes payment only after student gets a job.

BYJU'S | Business Development Trainee   April 2021 - May 2021
- BYJU'S is an e-learning platform for classes LKG to 12th.
- My role as a Business Development Associate (Trainee) was to council students of class 11th and 12th and pitch them about the company and it's product.

Internship and Certifications

SO INFOTECH (P) LTD. | Java Technology (Internship)   June 2019 - July 2019
- Under the Training Period, I have worked on Java Technology and get familiar with Java Industrial work and also created project entitled "Online Library Management System" under the guidance of technical head Mr. Deep Singh.
- Internship Certificate: https://drive.google.com/file/d/1IQipiPho4M8hTC9JxNmTQ1PwZ7dEcz9C/view?usp=sharing

Projects

Login Form | Newton School *(link)*   September 2021 - September 2021
- Login Form is the most important part for any webpage.
- It is used to enter authentication credentials to access a restricted page or form. It contains a field for the username and another for the password.
- When the login form is submitted its underlying code checks that the credentials are authentic, giving the user can access the restricted page. If a user is not able to provide authentic credentials they will not be able to proceed past the login form.
- This project was chosen because in todays era where safety is the most important thing, we cannot make any website where anyone can get access and can steal data. Thus we need to protect users data with a username and password to which only user knows and nobody else.
- **Role**: Developer
- **Tech Stack**: JavaScript, CSS, HTML

MUSIC PLAYER | Newton School *(link)*   September 2021 - October 2021
- Music can transform the emotions and feelings of the people within no time.
- It can lessen the stress, pain, struggle, distraction and bring positivity and calmness in our daily life.
- Music holds the power to bring people together in different ways. Music is also known to be the universal language of humanity.
- It has the power to bring positivity and entertainment in the lives of people.
- Everyone loves music because it holds the power to transform the mood and bring a sense of relief in their daily life.
- **Role**: Developer
- **Tech Stack**: JavaScript, CSS, HTML

Clone of Apple website | Newton School *(link)*   August 2021 - August 2021
- Of course, it's easier to copy a model than to make something new.
- Doing what we already know how to do takes the world from 1 to n, adding more of something familiar.
- But ever time we create something new, we go from 0 to 1. The art of creation is singular, as is the moment of creation, and the result is something fresh and strange.
- **Role**: Developer
- **Tech Stack**: CSS, HTML

Skills

Computer languages	JavaScript, CSS, HTML, Java
Software Packages	React, Bootstrap
Additional Courses Taken	Data Structure
